Players say
**SUPPORT
AND ENCOURAGE
BOTH TEAMS**

PARENT SUPPORT IS SO IMPORTANT!

When we spoke to players about what they wanted sideline support to look like, they said: “Support and encourage both teams”, “Be kind! That’s someone’s child”, “Your words can affect how we play”, “Hype them up”.

It’s really easy to get caught up in the intensity of the game or competition, but often young people will respond and feed off our emotions.

We want them to stay composed and focused to perform, so creating environments that enable them to do that is key.

It’s also amazing how much more enjoyable it is to watch when you turn up without expectations about the outcome or how you want them to play!

Mostly, young people just want to know that they have your unconditional support, that you love them no matter what, and that you are proud of them. Give them your attention and your biggest smile!
